Prefacio

Esta publicación presenta información detallada sobre el comercio exterior de Puerto Rico para el año fiscal 2017. El objetivo de este documento es servir a las necesidades de información de las personas y grupos interesados del gobierno así como del sector privado, respecto de las estadísticas sobre comercio exterior de Puerto Rico.

Los datos se presentan en una tabla resumen de los valores de las exportaciones e importaciones por país de destino y origen, así como la balanza comercial para Puerto Rico con estos países. Secciones separadas para las exportaciones y las importaciones proporcionan datos en un formato de mercancía por país, con totales para los principales grupos de productos básicos.

Las estadísticas del comercio exterior constituyen un importante componente de las cuentas económicas de Puerto Rico. Para comprender la importancia del comercio exterior en nuestra balanza de pagos, el Subprograma de Análisis Económico tiene otras dos publicaciones disponibles: Estadísticas Seleccionadas del Comercio Exterior de Puerto Rico y Balanza de Pagos.

Agradecemos la colaboración de la División de Comercio Exterior del Negociado del Censo de los Estados Unidos, que proporciona mensualmente las estadísticas de comercio exterior permitiendo la preparación de esta publicación. Asimismo, apreciamos la cooperación del Programa de Sistemas de Información y la Oficina de Servicios Auxiliares de la Junta de Planificación de Puerto Rico.

Preface

This publication presents detailed information on Puerto Rico's external trade of for fiscal year 2017. The objective of this document is to serve the information needs of interested groups and individuals from the government as well as the private sector, regarding the statistics on Puerto Rico's foreign trade.

The data presented are in a summary table for the values of exports and imports, by country of destination and origin, as well as the trade balance for Puerto Rico with these countries. Separate sections for exports and imports provide data in a commodity-by-country detail, with totals for major commodity groupings.

The external trade statistics represent an important component of Puerto Rico's economic accounts. In order to understand the overall importance of external trade in our balance of payments, the Subprogram of Economic Analysis has two other available publications: Estadísticas Seleccionadas del Comercio Exterior de Puerto Rico (Selected Statistics on Puerto Rico's External Trade), and Balanza de Pagos (Balance of Payments).

We acknowledge the collaboration of the Foreign Trade Division of the U.S. Bureau of the Census, which provides the monthly external trade statistics enabling the preparation of this publication. Also, we appreciate the cooperation of the Program of Information Systems, and the Office of Auxiliary Services of the Puerto Rico Planning Board.

PUERTO RICO' S EXTERNAL TRADE DATA SYSTEM AND DEFINITIONS

Introduction

The external trade data system of Puerto Rico incorporates all transactions of merchandise between Puerto Rico and the United States, U.S. Virgin Islands, and foreign countries. The U.S. Bureau of the Census compiles this information. Currently, the Subprogram of Economic Analysis of the Puerto Rico Planning Board receives the information monthly by electronic media, containing detailed statistics of the transactions by commodity, mean of transportation, weight, value, quantity, and country. This data is processed according to our specific needs of information in different types of tabulations. There are three basic geographic classifications: United States, foreign countries, and the U.S. Virgin Islands. Puerto Rico is included within the U.S. Customs and tariff systems. The Puerto Rico Trade Data Office, under the U.S. Bureau of the Census, began operations in January 1992. It guides and clarifies companies in Puerto Rico on the necessary proceedings in the shipment of merchandise to the United States and foreign countries.

Shipments between Puerto Rico and the United States

The statistics are obtained from a special form required to all companies, known as a Shipper's Export Declaration form (SED). For shipments from Puerto Rico to the United States, this form must be submitted to one of the U.S. Customs offices in San Juan, Ponce or Mayagüez. At the same time, a similar form must accompany all shipments from the U.S. to Puerto Rico. The value is based on the transaction price including inland freight, insurance and other charges to the border point or seaport. It is classified as Free Alongside Ship (FAS) value at the port of embarkation. It should not include ocean freight, marine insurance, or other charges incurred beyond the port of embarkation.

Trade with foreign countries

The information on exports from Puerto Rico is obtained from the SED's filed out by the exporters at the port of embarkation. The value of the shipment is based on the transaction price including inland freight, insurance, and other charges to the place of embarkation. Merchandise in transit shipped through Puerto Rico from one foreign country to another is not considered as an export. Imported merchandise which has cleared customs and which is re exported without further processing, is classified separately as exports of foreign merchandise, but included as part of exports and classified according to the official schedules.

Country of destination is defined as the place where the merchandise is to be consumed or used, either in further processing or final manufacturing. In the event the exporter does not have enough or definite information as to the ultimate destination of the shipment, it is credited for statistical purposes to the country to which it is consigned.

In the case of imports for direct consumption, the information is based on regular U.S. Custom's entries of merchandise filed out by the importers at one of the U.S. Customs Offices in San Juan, Ponce or Mayagüez. It includes imports for direct consumption plus withdrawals from bonded warehouses, government as well as non governmental. U.S. goods returned by the U.S. Armed Forces for their own use are excluded. Since 1982, import data is presented in terms of customs value, defined as the price paid for merchandise exported to the U.S., excluding U.S. import duties, freight, insurance and other charges incurred in bringing the merchandise to the United States. Before 1982, import data was presented as FAS value, which was defined as the transaction value of imports at the foreign port of embarkation.

Shipments between Puerto Rico and the U.S. Virgin Islands

In the case of exports to the U.S. Virgin Islands, the information comes from the SED's filed at the U.S. Customs Office at the time the merchandise is shipped. Shipments by all means of transportation are included. The value is based on the transaction price including inland freight, insurance, and other charges to the place of shipment.

Regarding imports, the information is based on the import entry form which importers are required to file at the U.S. Customs Office in San Juan. The value shown is the customs value, which is the value of imports as appraised by U.S. Customs. Commodity information is reported according to the classification schedules of the U.S. Department of Commerce.

Classifications

As part of the U.S. Customs system, the commodity classification systems used are the same as in the United States: Schedule B for exports and imports to or from the United States, and the Harmonized Tariff Schedule Annotated for imports from foreign countries. Both systems are based on the Harmonized Commodity Description (HS) and the Coding System.

Sources of information of external trade statistics

The annual report External Trade Statistics is the basic publication in which Puerto Rico's trade data is presented to the public. It includes a detailed set of statistics by commodity and country using the HS. Summary tables for each fiscal year are included in the Statistical Appendix of the Economic Report to the Governor, in the Selected Statistics on Puerto Rico's External Trade, in the Balance of Payments of Puerto Rico, and in other publications. In addition, there are internal reports or tabulations in which trade is classified by region or commodity, by geographic area or by country, and presented in a monthly and accumulated form. This information is maintained in the Program of Information Systems of the Planning Board. The reports are generated as needed. The published information is on a fiscal year basis, from July to June.

Although there is no on line access for external users, we have the capability of transferring information, tailored to particular requests, to diskettes, or to CD-ROMs on a cost basis. Printouts can also be provided on a cost basis.
