Nuestra Portada

La Junta de Planificación fue creada en el 1942. Este año, la Junta cumple sesenta años de historia. Nuestra portada recoge un poco de esa historia mediante las cuatro sedes que ha ocupado. Estas son: la residencia de enfermeras del antiguo Instituto Blanche Kellog (foto superior izquierda), parada 19 de la Avenida Manuel Fernández Juncos (foto superior derecha), parada 22½ de la Avenida Juan Ponce de León (foto inferior izquierda) y la actual, en el Centro Gubernamental Minillas (foto inferior derecha).

Desde su creación, la Junta de Planificación ha promovido un balance entre el desarrollo, conservación, protección y preservación del ambiente natural, el mejoramiento de la calidad de vida de nuestros ciudadanos y el progreso económico para Puerto Rico, dentro del contexto de un desarrollo sustentable con la ayuda y participación de nuestra ciudadanía.

En este Siglo XXI, continuaremos trazando los objetivos generales que sirven de marco de referencia a nuestra encomienda principal de guiar el desarrollo económico, social y físico de la Isla de forma integral. Las sedes que han albergado nuestra institución pueden haber cambiado, pero nuestro compromiso con el pueblo de Puerto Rico permanece constante.

Our cover

The Planning Board was created in the 1942. This year, the Planning Board is celebrating sixty years of history. Our cover portrays some of this history with the four headquarters it has occupied. These are: the nurses' residence of the former Blanche Kellog Institute (upper left photo), at stop 19 of Manuel Fernández Juncos Avenue (upper right photo), stop 22½ of Juan Ponce de León Avenue (lower left photo) and the present one, at the Minillas Governmental Center (lower right photo).

Since its creation, the Planning Board has promoted a balance among the development, conservation, protection and preservation of the natural environment, the improvement of the quality of life of our citizens, and the economic progress for Puerto Rico, within the context of a sustainable development with the support and participation of our citizenship.

In this XXI Century, we will continue outlining the general objectives that serve as a framework to our undertaking of guiding the Island's economic, social, and physical development in an integral approach. The headquarters that have harbored our institution may have changed, but our commitment with the people of Puerto Rico remains constant.

APENDICE ESTADISTICO / *STATISTICAL APPENDIX*

Preface

Each year, the Puerto Rico Planning Board publishes the **Statistical Appendix of the Economic Report to the Governor** as an advance of the statistical information later available at the **Economic Report to the Governor**. This **Statistical Appendix of the Economic Report to the Governor 2002** contains Puerto Rico's most important socioeconomic figures for fiscal year 2002 as well as previous years.

This publication is divided into three sections. The first one includes 34 tables with information from fiscal years 1993 through 2002, except tables 1 and 31. These two tables contain population figures and begin from fiscal year 1990. For a better understanding of the of the main variables' historical trend, we also include a second section with 32 graphs, plus a third one with 26 growth rates.

For this publication we also include external trade information according to the North American Industrial Classification System (NAICS). NAICS is the system designed to harmonize the industrial classification systems of Canada, the United States, and Mexico as a result of the North American Free Trade Agreement. Eventually, NAICS will substitute the Standard Industrial Classification (SIC) in the United States and Puerto Rico. In order to facilitate the transition between both systems, for this 2002 edition we present figures by both SIC as well as NAICS in tables 23 and 24. The cycle will be completed with the 2003 edition, when only NAICS data will be included. For those interested NAICS, especially the issues leading to the need for a substantial change of the current industrial classification system, the new industries, as well as a historical comparison between SIC and NAICS, see the chapter on NAICS at the **Economic Report to the Governor 1999**. Also, you may consult our publication **Selected Statistics on Puerto Rico's External Trade, 2001 and 2002**.

We acknowledge the public agencies and private organizations, which provided the information, used in the preparation of this report, and we urge users to broaden their respective economic and social analysis of Puerto Rico with the **Economic Report to the Governor 2002**.

APENDICE ESTADISTICO / *STATISTICAL APPENDIX*

Prefacio

La Junta de Planificación de Puerto Rico publica anualmente el **Apéndice Estadístico** como un adelanto de la información estadística disponible más adelante en el **Informe Económico a la Gobernadora**. Este **Apéndice Estadístico del Informe Económico a la Gobernadora 2002** contiene las cifras socioeconómicas de Puerto Rico más importantes para el año fiscal 2002 así como de años previos.

Esta publicación está dividida en tres secciones. La primera incluye 34 tablas con información desde los años fiscales 1993 a 2002, excepto las tablas 1 y 31. Estas dos tablas contienen cifras de población y comienzan desde el año fiscal 1990. Para un mejor entendimiento de la trayectoria histórica de las principales variables, se incluye además una segunda sección con 32 gráficas, así como una tercera con 26 tasas de crecimiento.

Para esta publicación incluimos además información de comercio exterior de acuerdo al Sistema de Clasificación Industrial de América del Norte (NAICS, por sus siglas en inglés). El NAICS es el sistema diseñado para armonizar los sistemas de clasificación industrial de Canadá, Estados Unidos y México como consecuencia del Tratado de Libre Comercio de Norteamérica (TLC). Eventualmente, el NAICS va a sustituir tanto en los Estados Unidos como en Puerto Rico al actual sistema de Clasificación Industrial Uniforme (SIC, por sus siglas en inglés). A manera de facilitar la transición entre ambos sistemas, para esta edición del 2002 presentamos cifras tanto por SIC como por NAICS en las tablas 23 y 24. El ciclo se completará con la edición del 2003, incluyendo solamente la información por NAICS. Para aquellos interesados en NAICS, especialmente en los factores que motivaron la necesidad de un cambio substancial del sistema vigente de clasificación industrial, las nuevas industrias, así como la comparación histórica entre SIC y NAICS, ver el capítulo sobre NAICS en el **Informe Económico al Gobernador 1999**. Además, puede consultar nuestra publicación **Estadísticas Seleccionadas del Comercio Exterior de Puerto Rico** de 2001 y 2002.

Agradecemos a las entidades públicas y privadas que proveyeron los datos utilizados para preparar este apéndice estadístico, y exhortamos a los usuarios a ampliar su respectivo análisis económico y social de la Isla con el **Informe Económico a la Gobernadora 2002**.

r- Cifras revisadas.

p- Cifras preliminares.

(1) Deflacionado por el índice implícito de precios para deflacionar los gastos de consumo personal.

(2) El número de familias aquí utilizado es producto de la división de la población total entre el promedio de personas por familia. Para propósitos del censo de población, una familia consiste de un jefe de hogar y una persona o más que viven en el mismo hogar y están emparentados con el jefe del hogar por nacimiento, matrimonio o adopción.

(3) Departamento del Trabajo y Recursos Humanos, Negociado de Estadísticas, Encuesta de Vivienda.

(4) Se obtiene dividiendo el producto bruto interno a precios constantes entre el empleo total.

(5) 1984=100.

(6) Promedio de los estimados de la población al principio y al final del año fiscal.

Fuente: Junta de Planificación, Programa de Planificación Económica y Social,
Subprograma de Análisis Económico.

r- Revised figures.

p- Preliminary figures.

(1) Deflated by implicit price deflators for personal consumption expenditures.

(2) The number of families used here represents the division of the total population by the average number of persons per family. For the purpose of the population census, a family consists of a householder and one or more other persons living in the same household who are related to the householder by birth, marriage or adoption.

(3) Department of Labor and Human Resources, Bureau of Statistics, Household Survey.

(4) Obtained from the division of gross domestic product at constant prices by total employment.

(5) 1984=100.

(6) Average of population estimates at the beginning and end of the fiscal year.

r- Cifras revisadas.

p- Cifras preliminares.

(1) Desde 1993 se incluyen los préstamos en compañías de fideicomiso con poderes de banco. Para los años desde el 1997 al 1999 los datos reflejan cambios debido a disminuciones en los balances acumulados y a reclasificaciones de préstamos personales a préstamos hipotecarios.

(2) Desde 1995 se incluyen sólo dos bancos federales de ahorro. Estos pasaron a ser bancos comerciales en 1999.

(3) No incluye todas las tarjetas de crédito.

Fuente: Comisionado de Instituciones Financieras, Asociación de Empleados del AEELA, National Credit Union Administration, Corporación de Seguro de Acciones y Depósitos de Cooperativas de Ahorro y Crédito (PROSAD COOP), Sistemas de Retiro de la Autoridad de Energía Eléctrica, ELA, Maestros y de la Universidad de Puerto Rico.

r- Revised figures.

p- Preliminary figures.

(1) Since 1993 the loans in trust companies with banking powers have been included. For years 1997 to 1999, there are changes in these figures due to lower accrued balances and changes in classification of personal loans to mortgage loans.

(2) Since 1995 only two federal saving banks are included. They became commercial banks in 1999.

(3) Does not include all credit cards.

p- Cifras preliminares.

(1) A partir de 1996, los recaudos por concepto de intereses sobre dividendos se redujeron de 20 a 10% debido a la Reforma Contributiva de 1994 (Ley Núm. 120 del 31 de octubre de 1994).

(2) Desde el año fiscal 2001, el Departamento de Hacienda incorpora estas partidas.

(3) Incluye \$1,011.4, \$982.8, \$1,093.5, \$1,075.4, \$1,155.7, \$1,204.0, \$1,206.3, \$1,173.4, \$1,213.2 y \$1,197.3 millones en los años fiscales 1993 al 2002, respectivamente, contabilizados por el gobierno del E.L.A. del Programa de Asistencia Nutricional.

p- Preliminary figures.

(1) Since 1996, the receipts from interest on dividends were lowered from 20% to 10% due to the 1994 Tax Reform (Act 120 of October 31, 1994).

(2) Since fiscal year 2001, the Department of the Treasury incorporates these items.

(3) Includes \$1,011.4, \$982.8, \$1,093.5, \$1,075.4, \$1,155.7, \$1,204.0, \$1,206.3, \$1,173.4, \$1,213.2, and \$1,197.3 million in fiscal years 1993 to 2002, respectively, accounted by the Commonwealth Government from the Nutritional Assistance Plan.

										Administrative procedures (2)

p- Cifras preliminares.

(1) A partir de 1996, los recaudos por concepto de intereses sobre dividendos se redujeron de 20 a 10% debido a la Reforma Contributiva de 1994 (Ley Núm. 120 del 31 de octubre de 1994).

(2) Desde el año fiscal 2001, el Departamento de Hacienda incorpora estas partidas.

p- Preliminary figures.

(1) Since 1996, the receipts from interest on dividends were lowered from 20% to 10% due to the 1994 Tax Reform (Act 120 of October 31, 1994).

(2) Since fiscal year 2001, the Department of Treasury incorporates these items.

INTERPRETACION DE LOS CUADROS DE TASAS DE CRECIMIENTO ANUAL

Esta sección del **Apéndice Estadístico del Informe Económico a la Gobernadora de 2002** incluye cuadros con las tasas de crecimiento para los años fiscales 1979 al 2002 correspondientes a las siguientes variables económicas:

- | | |
|--|---|
| 1. producto bruto | 15. ingreso personal |
| 2. producto bruto per cápita | 16. ingreso personal per cápita |
| 3. gastos de consumo personal | 17. ingreso personal disponible |
| 4. gastos de consumo personal per cápita | 18. ingreso personal disponible per cápita |
| 5. gastos de consumo personal de bienes duraderos | 19. ingreso neto |
| 6. gastos de consumo personal de bienes no duraderos | 20. ingreso neto per cápita |
| 7. gastos de consumo personal de servicios | 21. índice implícito de precios para deflacionar el producto bruto |
| 8. gastos de consumo del gobierno | 22. índice implícito de precios para deflacionar los gastos de consumo personal |
| 9. inversión interna bruta de capital fijo | 23. empleo |
| 10. inversión en construcción | 24. desempleo |
| 11. inversión en construcción de vivienda privada | 25. población |
| 12. inversión en maquinaria y equipo | 26. deuda pública bruta |
| 13. producto bruto interno | |
| 14. producto bruto interno per cápita | |

Los cuadros para estas variables se presentan a precios corrientes y constantes en los casos donde corresponda. Cada uno de éstos contiene las tasas de crecimiento anual para dos años en específico, cualesquiera que éstos sean para la serie presentada en esta publicación. Los cuadros están divididos por una línea diagonal formando dos triángulos. Las tasas de crecimiento a precios corrientes se presentan en el triángulo inferior y las tasas de crecimiento a precios constantes en el triángulo superior. La ventaja de este ordenamiento es que permite comparar directamente, entre dos años dados, la tasa de crecimiento monetario con la tasa de crecimiento real de una determinada variable macroeconómica.

El cuadro se lee igual que el sistema de coordenadas cartesianas. Tanto en el eje de las abscisas (eje horizontal) como en el de las ordenadas (eje vertical) aparecen los años. En el punto o celda de intersección de dos años dados aparece la tasa de crecimiento para el periodo.

Si se interesa obtener la tasa de crecimiento de una variable a precios corrientes entre dos años dados, se busca primeramente en el eje vertical el año más reciente y se mueve en dirección horizontal hacia la derecha, hasta encontrar la intersección con el otro año. El valor que aparece en la celda de intersección es la tasa de crecimiento monetario durante el periodo. En cambio, si lo que se interesa es obtener la tasa de crecimiento a precios constantes de la misma variable, se busca primeramente en el eje horizontal (en el tope del cuadro) el año más reciente y se mueve en dirección vertical, hasta encontrar la intersección con el otro año. De este modo, se obtiene la tasa de crecimiento real durante el periodo. Por ejemplo, la tasa de crecimiento anual del producto bruto a precios corrientes en el periodo de 1987 al 1995 fue de 6.5 por ciento. En cambio, la tasa de crecimiento a precios constantes de esa variable en el mismo periodo fue de 2.7 por ciento. Al realizar el procedimiento conviene recordar que se debe partir del año más reciente.

INTERPRETATION OF THE ANNUAL GROWTH RATES TABLES

This section of the **Statistical Appendix of the Economic Report to the Governor 2002** includes growth rates tables for fiscal years 1979 through 2002, corresponding to the following economic variables:

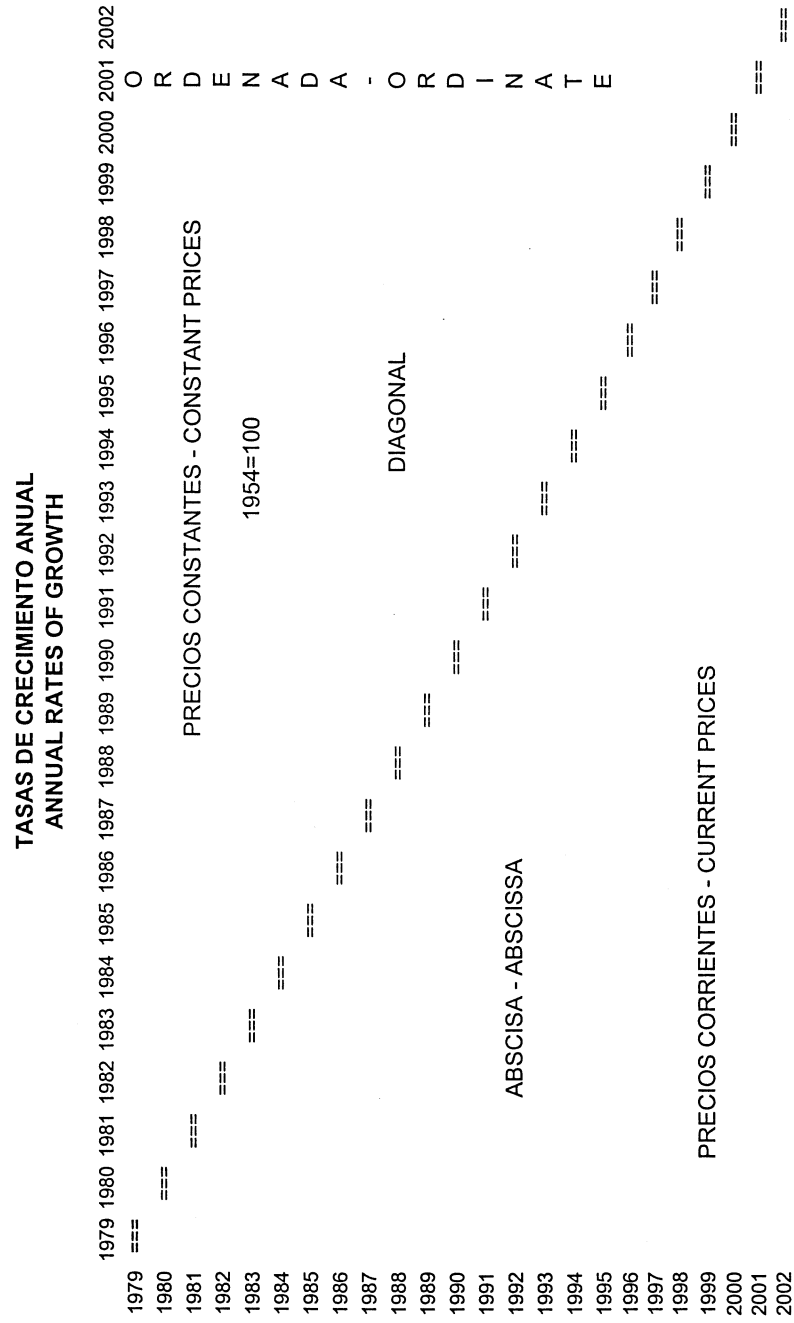

- | | |
|---|--|
| 1. gross product | 14. per capita gross domestic product |
| 2. per capita gross product | 15. personal income |
| 3. personal consumption expenditures | 16. per capita personal income |
| 4. per capita personal consumption expenditures | 17. disposable personal income |
| 5. personal consumption expenditures of durable goods | 18. per capita disposable personal income |
| 6. personal consumption expenditures of non durable goods | 19. net income |
| 7. personal consumption expenditures of services | 20. per capita net income |
| 8. government consumption expenditures | 21. implicit price deflators for gross product |
| 9. gross fixed domestic investment | 22. implicit price deflators for personal consumption expenditures |
| 10. construction investment | 23. employment |
| 11. private housing construction investment | 24. unemployment |
| 12. machinery and equipment investment | 25. population |
| 13. gross domestic product | 26. gross public debt |

The tables for these variables are presented at current and constant prices where applicable. Each one of these contains the annual growth rates for specifically two years, whichever they are for the series presented in this publication. The tables are divided by a diagonal line forming two triangles. The growth rates at current prices are at the lower triangle and the growth rates at constant prices are at the upper triangle. The advantage of this layout is that it permits a direct comparison, between two years, of the nominal growth rate with the real growth rate of a determined macroeconomic variable.

The table is read the same as in Cartesian coordinates. The years appear at both the abscissas axis (horizontal axis) as well as that of the ordinates (vertical axis). At the intersection point or cell for two given years, the growth rate for such period appears.

If it is interested in obtaining a variable's growth rate at current prices between two given years, first look at the vertical axis for the most recent year and move towards horizontally to the right, until the other year's intersection is found. The value appearing at the intersection cell is the nominal growth rate during such period. On the other hand, if it is interested in obtaining the constant growth rate for the same variable, look first the horizontal axis (at the top of the table) of the most recent year and move in a vertical direction, until the intersection with the other year is found. Hence, the real growth rate during such period is obtained. For example, the gross product's annual growth rate at current prices for the period of 1987 through 1995 was 6.5 percent. On the other hand, the growth rate at constant prices for such variable during the same period was 2.7 percent. While doing the procedure it is convenient to remember that you must start from the most recent year.

Misión

*Enfrentar los retos para el
desarrollo de una sociedad
basada en una economía
sustentable, conservando y
protegiendo nuestro
ambiente para beneficio
de las generaciones
presentes y futuras.*

Visión

*Nuestra visión está orientada
hacia promover un balance
entre el desarrollo,
conservación, protección y
preservación del ambiente
natural, el mejoramiento de la
calidad de vida de nuestros
ciudadanos y el progreso
económico dentro del contexto
de un desarrollo sustentable
con la ayuda y participación
de nuestra ciudadanía.*

Lema

*“Impulsando la Planificación
Conservación del Medio
Ambiente y el Desarrollo
Sustentable de Puerto Rico”*
