PREFACIO

La Junta de Planificación de Puerto Rico publica anualmente el Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa como un adelanto de la información estadística disponible más adelante en el Informe Económico al Gobernador. Este Apéndice Estadístico contiene las cifras socioeconómicas de Puerto Rico más importantes para el año fiscal 2010 así como de años previos.

Anteriormente, la publicación utilizó las industrias basadas en lo que se conoce como la Clasificación Industrial Estándar (SIC). Esta fue desarrollada para catalogar los establecimientos o las empresas por su actividad principal, lo cual ayudó a la recolección y la tabulación de los datos. Con el tiempo, el SIC fue menos relevante a los cambios y desarrollo dentro de las nuevas industrias.

A raíz de la creación del Tratado de Libre Comercio de America del Norte (TLCAN) entre las naciones de Canadá, México y Estados Unidos se acordó estandarizar el ordenamiento de las industrias basadas en el nuevo esquema conocido como el Sistema de Clasificación Industrial Norte Americana (SCIAN). Este es un sistema que ubica la unidad económica o establecimiento en las distintas industrias tomando en cuenta los procesos de producción similares.

El SCIAN va más a tono con los cambios que han estado ocurriendo en las economías modernas y les permite comparar el crecimiento de las industrias, la productividad, el costo de labor por unidad y el empleo de las naciones utilizando los mismos parámetros, a su vez facilitando el análisis de las economías. Este fue diseñado para propósitos estadísticos y puede ser usado para propósitos de administrativos, de impuestos y requerimientos entre las agencias de gobierno.

Además del cambio a SCIAN, por segundo año y para un mejor entendimiento de la trayectoria histórica de las principales variables, se incluye las 35 gráficas junto con las 34 tablas de información desde los años fiscales 2001 a 2010. En la segunda sección, se incluye las 26 tasas de crecimiento.

Agradecemos a las entidades públicas y privadas que proveyeron los datos utilizados para preparar este apéndice estadístico, y exhortamos a los usuarios a ampliar su respectivo análisis económico y social de la Isla con el Informe Económico al Gobernador.

PREFACE

Each year, the Puerto Rico Planning Board publishes the Statistical Appendix of the Economic Report to the Governor and the Legislative Assembly as an advance of the statistical information later available at the Economic Report to the Governor. This Statistical Appendix contains Puerto Rico's most important socioeconomic figures for fiscal year 2010 as well for previous years.

Previously, this publication organized industries based on what is known as the Standard Industrial Classification (SIC). It was developed for grouping establishments or firms by its main activity, which helped in the collection and tabulation of data. Eventually, the SIC was less relevant to the changes and development of new industries.

After the North American Free Trade Agreement (NAFTA) between the nations of Canada, Mexico and the United States, the ordering of industries was standardized based on a new system of classification known as the North American Industry Classification System (NAICS). This system uses the principle that producing units that use similar production processes should be grouped together.

NAICS also reflects the changes that have been happening in modern economies and allows the comparison between developing industries, productivity, work per unit cost and employment of nations using the same parameters, therefore, facilitating the analysis of economies. It is intended for statistical purposes and can also be used by government policy analysis, by academics and researchers, by the business community and by the public.

In addition to changing to NAICS, and for better understanding of the historic trajectory of the principal variables, we include the 35 graphs together with the 34 tables of information from the fiscal years 2001 through 2010. In the second section, we include the 26 growth rate tables.

We acknowledge the public agencies and private organizations, which provided the information, used in the preparation of this report, and we urge users to broaden their respective economic and social analysis of Puerto Rico with the Economic Report to the Governor.

r- Cifras revisadas.

p- Cifras preliminares.

- (1) Deflacionado por el índice implícito de precios para deflacionar los gastos de consumo personal.
- (2) El número de familias aquí utilizado es producto de la división de la población total entre el promedio de personas por familia. Para propósitos del censo de población, una familia consiste de un jefe de hogar y una persona o más que viven en el mismo hogar y están emparentados con el jefe del hogar por nacimiento, matrimonio o adopción.
- (3) Departamento del Trabajo y Recursos Humanos, Negociado de Estadísticas, Encuesta de Vivienda.
- (4) Se obtiene dividiendo el producto interno bruto a precios constantes entre el empleo total.
- (5) Dic. 2006=100.
- (6) Promedio de los estimados de la población al principio y al final del año fiscal.

Fuente: Junta de Planificación, Programa de Planificación Económica y Social, Subprograma de Análisis Económico.

r- Revised figures.

p- Preliminary figures.

- (1) Deflated by implicit price deflators for personal consumption expenditures.
- (2) The number of families used here represents the division of the total population by the average number of persons per family. For the purpose of the population census, a family consists of a householder and one or more other persons living in the same household who are related to the householder by birth, marriage or adoption.
- (3) Department of Labor and Human Resources, Bureau of Statistics, Household Survey.
- (4) Obtained from the division of gross domestic product at constant prices by total employment.
- (5) Dec. 2006=100.
- (6) Average of population estimates at the beginning and end of the fiscal year.

r- Cifras revisadas.

p- Cifras preliminares.

(1) Desde 1983 se incluyen los préstamos en compañías de fideicomiso con poderes de banco.

Para los años desde el 1997 al 1999 los datos reflejan cambios debido a disminuciones en los balances acumulados y a reclasificaciones de préstamos personales a préstamos hipotecarios.

(2) Desde 1995 se incluyen sólo dos bancos federales de ahorro. Estos pasaron a ser bancos comerciales en 1999.

(3) No incluye todas las tarjetas de crédito.

Fuente: Comisionado de Instituciones Financieras, Asociación de Empleados del AEELA, National Credit Union Administration, Corporación para la supervisión y Seguro de Cooperativas de Puerto Rico (COSSEC), Sistemas de Retiro de la Autoridad de Energía Eléctrica, ELA, Maestros y de la Universidad de Puerto Rico.

r- Revised figures.

p- Preliminary figures.

(1) Since 1983 the loans in trust companies with banking powers have been included.

For years 1997 to 1999, there are changes in these figures due to lower accrued balances and changes in classification of personal loans to mortgage loans.

(2) Since 1995 only two federal saving banks are included. They became commercial banks in 1999.

(3) Does not include all credit cards.

r- Cifras revisadas.

p- Cifras preliminares.

(1) A partir de 1996, los recaudos por concepto de intereses sobre dividendos se redujeron de 20 a 10% debido a la Reforma Contributiva de 1994 (Ley Núm.120 del 31 de octubre de 1994).

(2) Desde el año fiscal 2001, el Departamento de Hacienda incorpora estas partidas.

Fuente: Departamento de Hacienda, Oficina de Asuntos Económicos.

r- Revised figures.

p- Preliminary figures.

(1) Since 1996, the receipts from interest on dividends were lowered from 20% to 10% due to the 1994 Tax Reform (Act 120 of October 31, 1994).

(2) Since fiscal year 2001, the Department of the Treasury incorporates these items.

Source: Department of the Treasury, Office of Economic Affairs.

r- Cifras revisadas.

p- Cifras preliminares.

(1) A partir de 1996, los recaudos por concepto de intereses sobre dividendos se redujeron de 20 a 10% debido a la Reforma Contributiva de 1994 (Ley Núm.120 del 31 de octubre de 1994).

(2) Desde el año fiscal 2001, el Departamento de Hacienda incorpora estas partidas.

Fuente: Departamento de Hacienda, Oficina de Asuntos Económicos.

r- Revised figures.

p- Preliminary figures.

(1) Since 1996, the receipts from interest on dividends were lowered from 20% to 10% due to the 1994 Tax Reform (Act 120 of October 31, 1994).

(2) Since fiscal year 2001, the Department of Treasury incorporates these items.

INTERPRETACION DE LOS CUADROS DE TASAS DE CRECIMIENTO ANUAL

Esta sección del Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa 2010 incluye cuadros con las tasas de crecimiento para los años fiscales 1987 al 2010 correspondientes a las siguientes variables económicas:

- | | |
|--|--|
| 1. Producto bruto | 15. Ingreso personal |
| 2. Producto bruto per cápita | 16. Ingreso personal per cápita |
| 3. Gastos de consumo personal | 17. Ingreso personal disponible |
| 4. Gastos de consumo personal per cápita | 18. Ingreso personal disponible per cápita |
| 5. Gastos de consumo personal de bienes duraderos | 19. Ingreso neto |
| 6. Gastos de consumo personal de bienes no duraderos | 20. Ingreso neto per cápita |
| 7. Gastos de consumo personal de servicios | 21. Índice implícito de precios
para deflacionar el producto bruto |
| 8. Gastos de consumo del gobierno | 22. Índice implícito de precios para
deflacionar los gastos de consumo personal |
| 9. Inversión interna bruta de capital fijo | 23. Empleo |
| 10. Inversión en construcción | 24. Desempleo |
| 11. Inversión en construcción de vivienda privada | 25. Población |
| 12. Inversión en maquinaria y equipo | 26. Deuda pública bruta de Puerto Rico |
| 13. Producto interno bruto | |
| 14. Producto interno bruto per cápita | |

Los cuadros para estas variables se presentan a precios corrientes y constantes en los casos donde corresponda. Cada uno de éstos contiene las tasas de crecimiento anual para dos años en específico, cualesquiera que éstos sean para la serie presentada en esta publicación. Los cuadros están divididos por una línea diagonal formando dos triángulos. Las tasas de crecimiento a precios corrientes se presentan en el triángulo inferior y las tasas de crecimiento a precios constantes en el triángulo superior. La ventaja de este ordenamiento es que permite comparar directamente, entre dos años dados, la tasa de crecimiento monetario con la tasa de crecimiento real de una determinada variable macroeconómica.

El cuadro se lee igual que el sistema de coordenadas cartesianas. Tanto en el eje de las abscisas (eje horizontal) como en el de las ordenadas (eje vertical) aparecen los años. En el punto o celda de intersección de dos años dados aparece la tasa de crecimiento para el periodo.

Si se interesa obtener la tasa de crecimiento de una variable a precios corrientes entre dos años dados, se busca primeramente en el eje vertical el año más reciente y se mueve en dirección horizontal hacia la derecha, hasta encontrar la intersección con el otro año. El valor que aparece en la celda de intersección es la tasa de crecimiento monetario durante el periodo. En cambio, si lo que se interesa es obtener la tasa de crecimiento a precios constantes de la misma variable, se busca primeramente en el eje horizontal (en el tope del cuadro) el año más reciente y se mueve en dirección vertical, hasta encontrar la intersección con el otro año. De este modo, se obtiene la tasa de crecimiento real durante el periodo. Por ejemplo, la tasa de crecimiento anual del producto bruto a precios corrientes en el periodo de 1987 al 1995 fue de 6.5 por ciento. En cambio, la tasa de crecimiento a precios constantes de esa variable en el mismo periodo fue de 2.7 por ciento. Al realizar el procedimiento conviene recordar que se debe partir del año más reciente.

READING OF THE ANNUAL GROWTH RATES TABLES

This section of the Statistical Appendix of the Economic Report to the Governor and to the Legislative Assembly 2010 includes growth rates tables for fiscal years 1987 through 2010, corresponding to the following economic variables:

- | | |
|--|--|
| 1. Gross Product | 14. Per Capita Gross Domestic Product |
| 2. Per Capita Gross Product | 15. Personal Income |
| 3. Personal Consumption Expenditures | 16. Personal Per Capita Income |
| 4. Per Capita Personal Consumption Expenditures | 17. Disposable Personal Income |
| 5. Durable Goods Personal Consumption Expenditures | 18. Per Capita Disposable Personal Income |
| 6. Non Durable Goods Personal Consumption Expenditures | 19. Net Income |
| 7. Personal Consumption Expenditures of Services | 20. Per Capita Net Income |
| 8. Government Consumption Expenditures | 21. Implicit Price Deflators for Gross Product |
| 9. Gross Domestic Fixed Investment | 22. Implicit Price Deflators for Personal Consumption Expenditures |
| 10. Construction Investment | 23. Employment |
| 11. Private Housing Construction Investment | 24. Unemployment |
| 12. Machinery and Equipment Investment | 25. Population |
| 13. Gross Domestic Product | 26. Gross Public Debt of Puerto Rico |

The tables for these variables are presented at current and constant prices where applicable. Each one of these contains the annual growth rates for specifically two years, whichever they are for the series presented in this publication. The tables are divided by a diagonal line forming two triangles. The growth rates at current prices are at the lower triangle and the growth rates at constant prices are at the upper triangle. The advantage of this layout is that it permits a direct comparison, between two years, of the nominal growth rate with the real growth rate of a determined macroeconomic variable.

The table is read the same as in Cartesian coordinates. The years appear at both the abscissas axis (horizontal axis) as well as that of the ordinates (vertical axis). At the intersection point or cell for two given years, the growth rate for such period appears.

If it is interested in obtaining a variable's growth rate at current prices between two given years, first look at the vertical axis for the most recent year and move towards horizontally to the right, until the other year's intersection is found. The value appearing at the intersection cell is the nominal growth rate during such period. On the other hand, if it is interested in obtaining the constant growth rate for the same variable, look first the horizontal axis (at the top of the table) of the most recent year and move in a vertical direction, until the intersection with the other year is found. Hence, the real growth rate during such period is obtained. For example, the gross product's annual growth rate at current prices for the period of 1987 through 1995 was 6.5 percent. On the other hand, the growth rate at constant prices for such variable during the same period was 2.7 percent. While doing the procedure it is convenient to remember that you must start from the most recent year.
