## PREFACIO

La **Ley 75 de 24 de junio de 1975**, según enmendada, ordena a la Junta de Planificación a preparar un **Informe Económico al Gobernador y a la Asamblea Legislativa de Puerto Rico**. Este documento constituye una herramienta valiosa en la toma de decisiones sobre política pública y provee gran utilidad para los interesados en el desarrollo económico de Puerto Rico.

El **Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa** se publica anualmente. Además, presenta estadísticas que forman parte del **Informe Económico al Gobernador**. El mismo contiene las cifras socioeconómicas de Puerto Rico relevantes para el periodo 2008 al 2017.

Esta publicación está dividida en dos secciones. La primera incluye 35 gráficas junto con las 34 tablas de información desde los años fiscales 2008 a 2017. En la segunda sección, se incluyen las 26 tasas que presentan las tasas de crecimiento. Las tablas 23, 24, y 25 fueron revisadas por el Negociado del Censo de Estados Unidos para el año 2016. Estas tablas contienen información de exportaciones e importaciones de mercancía registrada de acuerdo al Sistema de Clasificación Industrial de América del Norte. Las tablas 31, 32, 33 y 34 fueron revisadas por el Departamento del Trabajo de Estados Unidos y el Negociado del Censo de Estados Unidos, e incluyeron las actualizaciones incorporadas por estas agencias. Estas tablas contienen información de empleo, desempleo y población revisadas para el periodo 2008 a 2017.

Agradecemos a las entidades públicas y privadas que proveyeron los datos utilizados para preparar este **Apéndice Estadístico**.

## PREFACE

**Law 75 of June 24, 1975**, as amended, orders the **Puerto Rico Planning Board** to prepare an **Economic Report to the Governor of Puerto Rico** and to the Puerto Rico Legislature. This report is a vital tool to develop public policy and a practical tool for those interested in Puerto Rico's economic development data.

The Report's **Statistics Appendix** is published annually. It presents vital statistics of the **Governor's Economic Report**. It also contains relevant Puerto Rico's socioeconomic statistics for the 2008 to 2017 period.

This publication is divided in two sections. The first one includes information presented in 35 graphics and 34 tables from fiscal years 2008 to 2017. The second section includes 26 growth rates tables. Tables 23 to 25 were revised by the U.S. Census Bureau for the year 2016. This tables contains registered commodities according to the Nort American Industry Classification System (NAICS). Tables 31 to 34 were revised by the U.S. Census Bureau and the U.S. Departmento of Labour to include current numbers. This tables show employment, unemployment, and population rates from the 2008 to 2017 period.

We aknowledge the help and support of the public and private entities and the professionals who provided the information compiled in this **Statistic Appendix**.

p- Preliminary figures.

(1) Deflacionado por el índice implícito de precios para deflacionar los gastos de consumo personal.

(2) El número de familias aquí utilizado es producto de la división de la población total entre el promedio de personas por familia. Para propósitos del censo de población, una familia consiste de un jefe de hogar y una persona o más que viven en el mismo hogar y están emparentados con el jefe del hogar por nacimiento, matrimonio o adopción.

(3) Departamento del Trabajo y Recursos Humanos. Negociado de Estadísticas, Encuesta de Vivienda.

(4) Se obtiene dividiendo el producto interno bruto a precios constantes entre el empleo total.

(5) Dic. 2006=100.

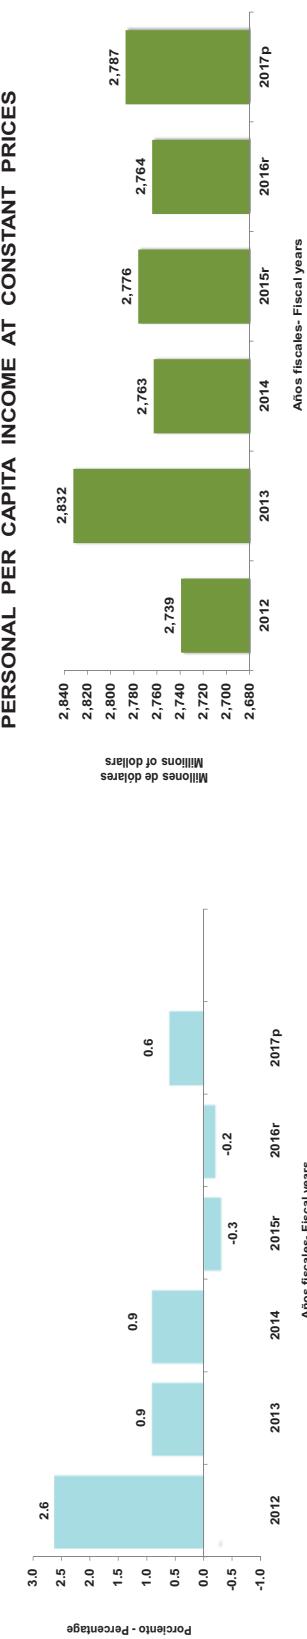

(6) Promedio de los estimados de la población al principio y al final del año fiscal. Datos intercensales a Julio 2017 (Negociado del Censo de E.U., División de Población, Population Division, Population Estimates, Vintage 2017), cifras revisadas desde el 2010 en adelante.

<sup>r</sup> Cifras revisadas.

<sup>p</sup> Cifras preliminares.

(1) Desde 1983 se incluyen los préstamos en compañías de fideicomiso con poderes de banco. Para los años desde el 1997 al 1999 los datos reflejan cambios debidos a disminuciones en los balances acumulados y a reclasificaciones de préstamos personales a préstamos hipotecarios.

(2) Desde 1995 se incluyen sólo dos bancos federales de ahorro. Estos pasaron a ser bancos comerciales en 1999.

(3) No incluye todas las tarjetas de crédito.

Fuente: Comisionado de Instituciones Financieras, Asociación de Empleados del AEEIA, National Credit Union Administration, Corporación para la Supervisión y Seguro de Cooperativas de Puerto Rico (COSSER), Sistemas de Retiro de la Autoridad de Energía Eléctrica, ELA, Maestros y de la Universidad de Puerto Rico.

<sup>r</sup> Revised figures.

<sup>p</sup> Preliminary figures.

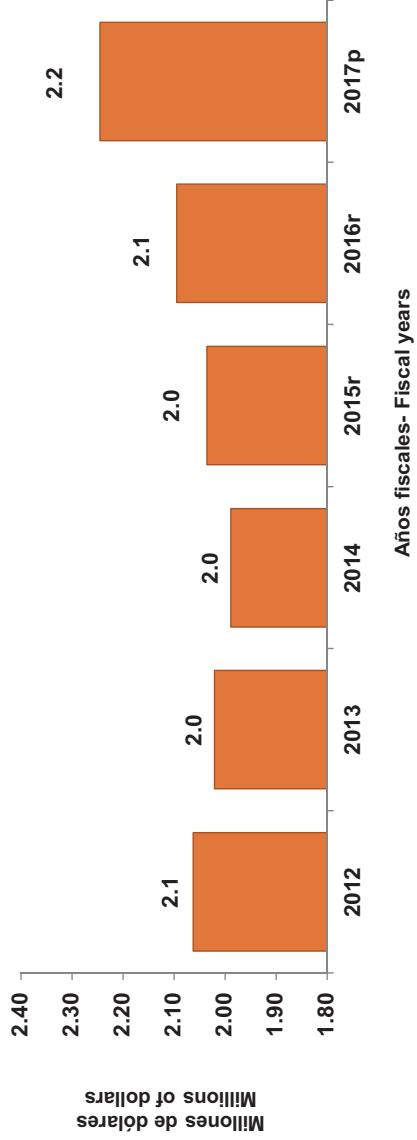

(1) Since 1983 the loans in trust companies with banking powers have been included. For years 1997 to 1999, there are changes in these figures due to lower accrued balances and changes in classification of personal loans to mortgage loans.

(2) Since 1995 only two federal saving banks are included. They became commercial banks in 1999.

(3) Does not include all credit cards.

r- Cifras revisadas.

p- Cifras preliminares.

(1) A partir de 1986, los recaudos por concepto de intereses sobre dividendos se redujeron de 20 a 10% debido a la Reforma Contributiva de 1994 (Ley Núm. 120 del 31 de octubre de 1994).

(2) Desde el año fiscal 2001, el Departamento de Hacienda incorpora estas partidas.

r- Revised figures.

p- Preliminary figures.

(1) Since 1986, the receipts from interest on dividends were lowered from 20% to 10% due to the 1994 Tax Reform (Act 120 of October 31, 1994).

(2) Since fiscal year 2001, the Department of Treasury incorporates these items.

# GROWTH RATES

## INTERPRETACIÓN DE LOS CUADROS DE TASAS DE CRECIMIENTO ANUAL

*Esta sección del Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa 2017 incluye cuadros con las tasas de crecimiento para los años fiscales 1992 al 2017 correspondientes a las siguientes variables económicas:*

- |  |   |
|--|---|
| 1. Producto bruto                                    | 15. Ingreso personal  |
| 2. Producto bruto per cápita                         | 16. Ingreso personal per cápita   |
| 3. Gastos de consumo personal                        | 17. Ingreso personal disponible   |
| 4. Gastos de consumo personal per cápita             | 18. Ingreso personal disponible per cápita                                      |
| 5. Gastos de consumo personal de bienes duraderos    | 19. Ingreso neto  |
| 6. Gastos de consumo personal de bienes no duraderos | 20. Ingreso neto per cápita   |
| 7. Gastos de consumo personal de servicios           | 21. Índices implícitos de precios para deflacionar el producto bruto            |
| 8. Gastos de consumo del gobierno                    | 22. Índice implícito de precios para deflacionar los gastos de consumo personal |
| 9. Inversión interna bruta de capital fijo           | 23. Empleo  |
| 10. Inversión en construcción                        | 24. Desempleo   |
| 11. Inversión en construcción de vivienda privada    | 25. Población   |
| 12. Inversión en maquinaria y equipo                 | 26. Deuda pública bruta de Puerto Rico  |
| 13. Producto interno bruto                           |   |
| 14. Producto interno bruto per cápita                |   |

*Los cuadros para estas variables se presentan a precios corrientes y constantes, según se interese. Cada uno de éstos contiene las tasas de crecimiento anual que relacionan dos años. Los cuadros están divididos por una línea diagonal. Las tasas de crecimiento a precios corrientes se presentan en la parte inferior de la línea y las tasas de crecimiento a precios constantes en la parte superior. El cuadro se lee igual que el sistema de coordenadas cartesianas. Tanto en el eje de las abscisas (eje horizontal) como en el de las ordenadas (eje vertical) aparecen los años. En el punto o celda de intersección de dos años dados aparece la tasa de crecimiento para el periodo.*

- Si se interesa obtener la tasa de crecimiento de una variable a precios corrientes entre dos años dados, se busca primeramente en el eje vertical el año más reciente de los dos años que desea comparar, luego busca en el eje horizontal (en el tope del cuadro) el año a comprar y encuentre el dato de intersección de ambos años. El valor que aparece en la celda de intersección es la tasa de crecimiento monetario durante el periodo.
- Si se interesa obtener la tasa de crecimiento a precios constantes del mismo periodo, se busca primeramente en el eje horizontal (en el tope del cuadro) el año más reciente, luego busca en el eje vertical el año a comprar y encuentre el dato de intersección de ambos años. El valor que aparece en la celda de intersección es la tasa de crecimiento real durante el periodo.
- Un ejemplo de este ejercicio, sería: la tasa de crecimiento anual del producto bruto a precios corrientes en el periodo de 1992 al 1997 fue de 6.4 por ciento. En cambio, la tasa de crecimiento a precios constantes de esa variable en el mismo periodo fue de 3.2 por ciento.

*La ventaja de este ordenamiento es que permite comparar directamente, entre dos años dados, la tasa de crecimiento monetario con la tasa de crecimiento real de una determinada variable macroeconómica.*

## INTERPRETATION OF THE ANNUAL GROWTH RATES TABLES

*This section of the Statistical Appendix of the Economic Report to the Governor and to the Legislative Assembly 2017 includes tables for growth rates of fiscal years 1992 through 2017, corresponding to the following economic variables:*

- |  |  |
|--|--|
| 1. Gross Product                                       | 14. Per Capita Gross Domestic Product                              |
| 2. Per Capita Gross Product                            | 15. Personal Income  |
| 3. Personal Consumption Expenditures                   | 16. Personal Per Capita Income                                     |
| 4. Per Capita Personal Consumption Expenditures        | 17. Disposable Personal Income                                     |
| 5. Durable Goods Personal Consumption Expenditures     | 18. Per Capita Disposable Personal Income                          |
| 6. Non-Durable Goods Personal Consumption Expenditures | 19. Net Income   |
| 7. Personal Consumption Expenditures of Services       | 20. Per Capita Net Income  |
| 8. Government Consumption Expenditures                 | 21. Implicit Price Deflators for Gross Product                     |
| 9. Gross Fixed Domestic Investment                     | 22. Implicit Price Deflators for Personal Consumption Expenditures |
| 10. Construction Investment                            | 23. Employment   |
| 11. Private Housing Construction Investment            | 24. Unemployment   |
| 12. Machinery and Equipment Investment                 | 25. Population   |
| 13. Gross Domestic Product                             | 26. Gross Public Debt of Puerto Rico                               |

*The tables presented for these variables show current and constant prices. Each one of these contain annual growth rates and allow relating two years. A diagonal line divides the tables, growth rates at current prices are below the line and the growth rates at constant prices are over the line. To read the table do so as in a Cartesian plane, where the years appear at both the abscissas axis (horizontal axis) as well as that of the ordinates axis (vertical axis). At the intersection point or cell for two given years, the growth rate for such period appears.*

- If you are interested in obtaining a variable's growth rate at current prices between two given years, first look at the vertical axis for the most recent year of the two years to be compared, next, find the other year in the horizontal axis (at the top of the table) and look for the point of intersection between such years. The value appearing at the intersection cell is the nominal growth rate during such period.
- If you are interested in obtaining the constant growth rate for the same variable, first look at the horizontal axis (at the top of the table) for the most recent year, of the two years to be compared, next, find the other year at the vertical axis, and look for the point of intersection between such years. The value appearing at the intersection cell is the real growth rate during such period.
- For example, the gross product's annual growth rate at current prices for the period of 1992 through 1997 was 6.4 percent. On the other hand, the growth rate at constant prices for such variable during the same period was 3.2 percent.

*The advantage of this layout is that it permits a direct comparison, between two years, of the nominal growth rate with the real growth rate of a determined macroeconomic variable.*
