PREFACIO

La Junta de Planificación es la agencia oficial encargada de divulgar las estadísticas sobre el comercio exterior de Puerto Rico. Por tal razón se publica el documento Estadísticas Seleccionadas del Comercio Exterior de Puerto Rico, para proveer y hacer más accesible al público esta información especializada de importancia para el país. El mismo sirve de complemento a los datos presentados tanto en Balanza de Pagos de Puerto Rico (para un mejor entendimiento de la importancia que tiene el sector externo en nuestra economía), como en el External Trade Statistics, en Balance Comercial de Puerto Rico por País y por Sistema de Clasificación Industrial de América del Norte (SCIAN) y en Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa.

Las estadísticas presentadas se refieren sólo al comercio de mercancía, no de servicios. La publicación está dividida en tres secciones. En la primera se provee información sobre el sistema de comercio exterior de Puerto Rico y las principales definiciones para beneficio de los usuarios. Se sugiere al lector que comience con esta sección para conocer las bases conceptuales de las definiciones que se utilizan en esta publicación. La segunda sección es un conjunto de tablas, mientras que la tercera comprende una serie de gráficas, incluyendo en ambas secciones una descripción de las exportaciones e importaciones, de acuerdo a criterios de clasificación de importancia: región geográfica, trato arancelario, clasificación industrial, principales productos y mercados y otros.

PREFACE

The Puerto Rico Planning Board is the agency responsible of issuing Puerto Rico's external trade statistics. For this reason we publish Selected Statistics on Puerto Rico's External Trade, in order to provide and make more accessible specialized information to the public. It contains supplementary information to the data presented in Balance of Payments of Puerto Rico (for a better understanding of the external sector's importance in our economy), as well as External Trade Statistics, in Puerto Rico Trade Balance by Country and by North American System of Industry Classification (NAICS), and in Statistical Appendix of the Economic Report to the Governor and to the Legislative Assembly.

The statistics presented refer only to merchandise, not services. The publication is divided in three sections. The first section provides information on Puerto Rico's external trade data system and definitions, for the benefit of the users. We suggest the reader starts with this section in order to understand the conceptual basis of the definitions being used throughout this report. The second section is a chart set, while the third section is a graph series, both of them comprising a description of exports and imports according to important classification criteria: geographic region; tariff treatment; industrial classification; main products and markets; and others.

EL SISTEMA DE LAS ESTADÍSTICAS DEL COMERCIO EXTERIOR DE PUERTO RICO Y DEFINICIONES

EL SISTEMA DE LAS ESTADÍSTICAS DEL COMERCIO EXTERIOR DE PUERTO RICO Y DEFINICIONES

Introducción

El sistema de las estadísticas del comercio exterior de Puerto Rico incorpora todas las transacciones de mercancía entre Puerto Rico y Estados Unidos, Islas Vírgenes de los Estados Unidos y países extranjeros. Esta información es recopilada por el Negociado del Censo de los Estados Unidos. El Subprograma de Análisis Económico de la Junta de Planificación de Puerto Rico recibe mensualmente la información a través de medios electrónicos. Esta contiene estadísticas detalladas de las transacciones por artículo, medio de transportación, peso, valor, cantidad y país. Las cifras se procesan de acuerdo a las necesidades específicas de información solicitada. Existen tres clasificaciones básicas: Estados Unidos, países extranjeros e Islas Vírgenes (EE.UU.). Puerto Rico está incluido dentro del sistema aduanero y arancelario de Estados Unidos. La Oficina de Datos de Comercio Exterior de Puerto Rico, bajo el Negociado del Censo federal, comenzó operaciones en enero de 1992. Esta orienta y aclara a las compañías en Puerto Rico todos los procedimientos que conlleva embarcar mercancía a Estados Unidos y a países extranjeros.

Embarques entre Puerto Rico y Estados Unidos

A todas las compañías se les requiere llenar una forma conocida como Declaración de Embarques de los Exportadores (SED, por sus siglas en inglés), de la cual se obtienen los datos estadísticos. Esta se somete a una de las oficinas de Aduana de los Estados Unidos en San Juan,

Ponce o Mayagüez. Esto se hace tanto para las exportaciones como para las importaciones. El valor está basado en el precio de transacción incluyendo fletes internos, seguros y otros cargos pertenecientes al punto de embarque, y se conoce como valor "FAS", por sus siglas en inglés (free alongside ship). No debe incluir flete marítimo, seguros u otros cargos que se incurran más allá del punto de embarque.

Comercio con países extranjeros

La información para las exportaciones de Puerto Rico con países extranjeros se toma de los formularios Declaración de Embarques de los Exportadores, que se llenan en el punto de embarcación. El valor del embarque está basado en el precio de transacción incluyendo fletes internos, seguros y otros cargos hasta el lugar de embarcación. La mercancía en tránsito enviada a través de Puerto Rico, desde un país extranjero a otro, no se considera como una exportación. La mercancía importada, que ha tenido el visto bueno de Aduana y es reexportada sin otro proceso, se clasifica separadamente como exportaciones de mercancía extranjera, pero se incluye como parte de las exportaciones y se clasifica de acuerdo a los manuales oficiales.

El país de destino es definido como el lugar donde la mercancía va a ser consumida o usada, procesada o para manufactura final. Si el exportador no tiene la información o la misma no está definida como último destino, se acredita para propósitos estadísticos al país al cual es consignada.

En las importaciones para consumo, la información es recopilada según las regulaciones aduaneras sometidas por los importadores a una de las oficinas de Aduana de los Estados Unidos en San Juan, Ponce o Mayagüez. Las mismas incluyen importaciones para consumo directo más las retiradas de los almacenes de adeudo gubernamentales y no gubernamentales. Se excluye mercancía devuelta por las Fuerzas Armadas de los Estados Unidos para su propio uso. Desde el 1982 las estadísticas de importaciones se presentan en términos del valor aduanero, el cual se define como el precio pagado por la mercancía cuando es vendida para exportación a los Estados Unidos, excluyendo los cargos de aduana norteamericana, fletes, seguros y otros cargos incurridos al llevar la mercancía a los Estados Unidos. Antes del 1982, las importaciones eran presentadas como valor "FAS" definido como el valor de la transacción de las importaciones en el punto de embarcación extranjero.

Embarques entre Puerto Rico y las Islas Vírgenes (EE.UU.)

En las exportaciones a Islas Vírgenes (EE.UU.) la información se obtiene de los formularios Declaración de Embarques de los Exportadores que se someten a las oficinas de Aduanas de los Estados Unidos al momento de embarcar la mercancía. Se incluyen los embarques a través de todos los medios de transportación. El valor es el precio de transacción incluyendo los fletes locales, seguros y otros cargos al lugar de envío.

En el caso de las importaciones, la información está basada en la declaración de importación que la Oficina de Aduana de los Estados Unidos en Puerto Rico le requiere a los importadores. El valor es el

aduanero, esto es, el de la importación al ser tasada por la aduana de los Estados Unidos. La información de los artículos es sometida de acuerdo a las clasificaciones del Departamento de Comercio de los Estados Unidos.

Clasificaciones

Como parte del sistema de aduana de los Estados Unidos, los sistemas usados en la clasificación de los artículos son iguales a los de Estados Unidos: Manual de Clasificación B para las exportaciones e importaciones hacia o desde Estados Unidos y el Manual Armónico Arancelario Anotado para las importaciones de países extranjeros. Ambos sistemas se basan en la Descripción de Artículos Armonizados y en el Sistema de Códigos.

Fuentes de información de las estadísticas de comercio exterior

La edición anual de External Trade Statistics es la publicación básica que presenta las estadísticas de comercio exterior de Puerto Rico. Esta incluye un detalle por artículo y país usando el Sistema Armónico (SA). Las tablas resúmenes son incluidas en el Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa, la Balanza de Pagos de Puerto Rico y en otras publicaciones. También se preparan tabulaciones e informes internos (mensuales y acumulados) en los cuales la información se clasifica por regiones o artículos, por área geográfica o país. La información es mantenida en el Programa de Sistemas de Información de la Junta de Planificación. Los informes son generados según las necesidades de los usuarios. La información publicada está basada en el año fiscal, esto es, de julio a junio.

PUERTO RICO'S EXTERNAL TRADE DATA SYSTEM AND DEFINITIONS

Introduction

The external trade data system of Puerto Rico incorporates all transactions of merchandise between Puerto Rico and the United States, U.S. Virgin Islands, and foreign countries. The U.S. Bureau of the Census compiles this information. Currently, the Subprogram of Economic Analysis of the Puerto Rico Planning Board receives the information monthly by electronic media, containing detailed statistics of the transactions by commodity, mean of transportation, weight, value, quantity, and country. This data is processed according to our specific needs of information in different types of tabulations. There are three basic geographic classifications: United States, foreign countries, and the U.S. Virgin Islands. Puerto Rico is included within the U.S. Customs and tariff systems. The Puerto Rico Trade Data Office, under the U.S. Bureau of the Census, began operations in January 1992. It guides and clarifies companies in Puerto Rico on the necessary proceedings in the shipment of merchandise to the United States and foreign countries.

Shipments between Puerto Rico and the United States

The statistics are obtained from a special form required to all companies, known as a Shipper's Export Declaration form (SED). For shipments from Puerto Rico to the United States, this form must be submitted to one of the U.S. Customs offices in San Juan, Ponce or Mayagüez. At the same time, a similar form must accompany all shipments from the U.S. to Puerto Rico. The value is based on the transaction price

including inland freight, insurance and other charges to the border point or seaport. It is classified as free alongside ship (FAS) value at the port of embarkation. It should not include ocean freight, marine insurance, or other charges incurred beyond the port of embarkation.

Trade with foreign countries

The information on exports from Puerto Rico is obtained from the SED's filed out by the exporters at the port of embarkation. The value of the shipment is based on the transaction price including inland freight, insurance, and other charges to the place of embarkation. Merchandise in transit shipped through Puerto Rico from one foreign country to another is not considered as an export. Imported merchandise which has cleared customs and which is re-exported without further processing, is classified separately as exports of foreign merchandise, but included as part of exports and classified according to the official schedules.

Country of destination is defined as the place where the merchandise is to be consumed or used, either in further processing or final manufacturing. In the event the exporter does not have enough or definite information as to the ultimate destination of the shipment, it is credited for statistical purposes to the country to which it is consigned.

In the case of imports for direct consumption, the information is based on regular U.S. Custom's entries of merchandise filed out by

the importers at one of the U.S. Customs Offices in San Juan, Ponce or Mayagüez. It includes imports for direct consumption plus withdrawals from bonded warehouses, government as well as non-governmental. U.S. goods returned by the U.S. Armed Forces for their own use are excluded. Since 1982, import data is presented in terms of customs value, defined as the price paid for merchandise exported to the U.S., excluding U.S. import duties, freight, insurance and other charges incurred in bringing the merchandise to the United States. Before 1982, import data was presented as FAS value, which was defined as the transaction value of imports at the foreign port of embarkation.

Shipments between Puerto Rico and the U.S. Virgin Islands

In the case of exports to the U.S. Virgin Islands, the information comes from the SED's filed at the U.S. Customs Office at the time the merchandise is shipped. Shipments by all means of transportation are included. The value is based on the transaction price including inland freight, insurance, and other charges to the place of shipment.

Regarding imports, the information is based on the import entry form which importers are required to file at the U.S. Customs Office in San Juan. The value shown is the customs value, which is the value of imports as appraised by U.S. Customs. Commodity information is reported according to the classification schedules of the U.S. Department of Commerce.

Classifications

As part of the U.S. Customs system, the commodity classification systems used are the same as in the United States: Schedule B for

exports and imports to or from the United States, and the Harmonized Tariff Schedule Annotated for imports from foreign countries. Both systems are based on the Harmonized Commodity Description and the Coding System.

Sources of information of external trade statistics

The annual report External Trade Statistics is the basic publication in which Puerto Rico's trade data is presented to the public. It includes a detailed set of statistics by commodity and country using the HS. Summary tables for each fiscal year are included in the Statistical Appendix of the Economic Report to the Governor and to the Legislative Assembly, in the Selected Statistics on Puerto Rico's External Trade, in the Balance of Payments of Puerto Rico, and in other publications. In addition, there are internal reports or tabulations in which trade is classified by region or commodity, by geographic area or by country, and presented in a monthly and accumulated form. This information is maintained in the Program of Information Systems of the Planning Board. The reports are generated as needed. The published information is on a fiscal year basis, from July to June.

Although there is no on line access for external users, we have the capability of transferring information, tailored to particular requests, to diskettes, or to CD-ROMs on a cost basis. Printouts can also be provided on a cost basis.

Nota: El registro oficial incluye bienes producidos en y exportados desde Puerto Rico más bienes no producidos en y exportados desde Puerto Rico.

Las exportaciones directas representan bienes producidos en y exportados desde Puerto Rico. Las exportaciones indirectas representan bienes producidos en Puerto Rico y exportados desde algún puerto en los Estados Unidos. El origen del movimiento es la suma de las exportaciones directas y las exportaciones indirectas. La División de Comercio Exterior del Negociado del Censo de los EE.UU no posee información similar en el caso de las importaciones. Las estadísticas del origen de movimiento se publican solamente con propósitos informativos y no existe intención de parte de la Junta de Planificación de que éstas formen parte del registro oficial de las estadísticas de comercio exterior.

Note: The official registry includes goods produced in and exported out of Puerto Rico plus goods not produced in and exported out of Puerto Rico. The direct exports represent goods produced in and exported out of Puerto Rico. The indirect exports represent goods produced in Puerto Rico and exported out of ports in the United States. The origin of the movement is the sum of the direct exports and the indirect exports. The Foreign Trade Division of the U.S. Bureau of the Census has no similar information in the case of imports. The origin of the movement statistics are published for informative purposes only and there is no intention on behalf of the Planning Board to adopt them into the official registry of external trade statistics.
