NOTA

El sistema de cuentas sociales de Puerto Rico se compone de cinco (5) cuentas, las cuales emulan un sistema de contabilidad en el que se registran entradas de débitos y créditos. Estas cuentas son: **Ingreso neto y producto bruto, Ingresos y gastos de las personas, Ingresos y gastos de los gobiernos central y municipales, Transacciones con el exterior y Ahorro e inversión bruta.** Esta última es de naturaleza residual, con la que se logra el balance del sistema.

Las entradas que se registran en las cinco (5) cuentas tienen su origen en las partidas que componen los estudios macroeconómicos de **ingreso neto, producto bruto, ingreso personal y balanza de pagos.** En estos estudios se agrupan las transacciones por concepto de actividades productivas de los cuatro (4) sectores económicos principales: empresas, personas, gobierno y resto del mundo. Los estimados de estas transacciones se hacen siguiendo conceptos adoptados por el Departamento de Comercio de los Estados Unidos y las Naciones Unidas.

*Puerto Rico's Economic Accounts system is composed of five (5) accounts that emulate an accounting system in which all debit and credit entries are registered. These accounts are: **Net income and gross product, Personal income and outlay, Central and municipal government receipts and expenditures, Foreign transactions, and the Saving and investment account.** The latter is a residual account that balance the system.*

*The entries registered in the five (5) accounts originate in the macroeconomic studies of **net income, gross product, personal income, and balance of payments.** In these studies all economic transactions that take place in the business, household, government, and foreign sectors are accounted. The estimates of these transactions follow the conceptual framework adopted by the United States Department of Commerce and the United Nations.*
