## PREFACIO

La Ley 75 de 24 de junio de 1975, según enmendada, conocida como la "Ley Orgánica de la Junta de Planificación de Puerto Rico", crea y asigna a la Junta de Planificación la responsabilidad "de guiar el desarrollo integral de Puerto Rico de modo coordinado, adecuado, económico, el cual, de acuerdo con las actuales y futuras necesidades sociales y los recursos humanos, ambientales, físicos y económicos, hubiere de fomentar en la mejor forma la salud, la seguridad, el orden, la convivencia, la prosperidad, la defensa, la cultura, la solidez económica y el bienestar general de los actuales y futuros habitantes, y aquella eficiencia, economía y bienestar social en el proceso de desarrollo, en la distribución de población, en el uso de las tierras y otros recursos naturales, y en las mejoras públicas que tiendan a crear condiciones favorables para que la sociedad pueda desarrollarse integralmente". Este documento constituye una herramienta valiosa en la toma de decisiones sobre política pública y provee gran utilidad para los interesados en el desarrollo económico de Puerto Rico.

La Junta de Planificación de Puerto Rico publica anualmente el Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa como un adelanto de la información estadística disponible que estará contenida más adelante en el Informe Económico al Gobernador. Este Apéndice Estadístico contiene las cifras socioeconómicas de Puerto Rico relevantes para los años fiscales 2013 al 2022.

Esta publicación está dividida en dos secciones. La primera incluye 34 gráficas junto con las 34 tablas de información desde los años fiscales 2013 a 2022. En la segunda sección, se incluyen las 26 tasas que presentan las tasas de crecimiento. Las tablas 23, 24, y 25 contienen información de exportaciones e importaciones de mercancía registrada, de acuerdo con el Sistema de Clasificación Industrial de América del Norte. La tabla 31 incluye información de la población revisada por el Negociado del Censo de Estados Unidos a diciembre de 2022. Las tablas 32, 33 y 34 contienen información revisada de empleo y desempleo.

Agradecemos a las entidades públicas y privadas que proveyeron los datos utilizados para preparar este Apéndice Estadístico y exhortamos a los usuarios a incorporar en su respectivo análisis económico y social de la Isla el **Informe Económico al Gobernador 2022**.

## PREFACE

Public Law 75 of 24 of June of 1975 as amended, known as the "Puerto Rico Planning Board Organic Act", creates and assigns to the Planning Board the responsibility " for the general purpose of guiding the integral development of Puerto Rico in a coordinate, adequate, economic manner which, according to the present and future social needs and human environmental, physical and economic resources, will best promote the health, safety, order, coexistence, prosperity, defense, culture, economic stability and general welfare of the present and future inhabitants and such efficiency, economy and social welfare in the process of development, in the distribution of population, in the use of the land and other natural resources, and in the public improvements as may tend to create conditions favorable for the society to develop integrally." This document is an important decision - making tool for public policy and is an instrument of interest for the economic development of Puerto Rico.

Each year, the Puerto Rico Planning Board publishes the Statistical Appendix of the Economic Report to the Governor and the Legislative Assembly as an advance of the statistical information that will be available in the Economic Report to the Governor. This Statistical Appendix contains Puerto Rico's most important socioeconomic figures for the 2013-2022 period.

This publication has two sections. The first section includes 34 graphs and 36 tables of information from fiscal years 2013 through 2022. In the second section, we include 26 growth rate tables. The tables 23, 24, and 25 contain information of exports and imports of goods according to the North American Industrial Classification System. Table 31 includes population estimates revised by the US Census Bureau as of December 2022. Tables 32, 33 and 34 contain revised information on employment and unemployment.

We acknowledge those public agencies and private organizations, which provided the information, used in this report. We urge users to incorporate into their respective economic and social analysis the valuable insight provided by the **Economic Report to the Governor 2022**.

r- Cifras revisadas.

p- Cifras preliminares.

r- Revised figures.

p- Preliminary figures.

- (1) Deflacionado por el índice implícito de precios para deflacionar los gastos de consumo personal.  
 (2) El número de hogares aquí utilizado es producto de la división de la población total entre el promedio de personas por hogar. Para propósitos del censo de población, un hogar incluye todas las personas que ocupan una unidad de vivienda (como una casa o apartamento) como su lugar habitual de residencia.  
 (3) Departamento del Trabajo y Recursos Humanos, Negociado de Estadísticas, Encuesta de Vivienda.  
 (4) Se obtiene dividiendo el producto interno bruto a precios constantes entre el empleo total.  
 (5) Dic. 2006=100.  
 (6) Promedio de los estimados de la población al principio y al final del año fiscal.

Datos intercensales a julio 2022.

Negociado del Censo de E.U., División de Población.

Población, cambio de población y componentes estimados del cambio de población de la Población Residente para los Estados Unidos, Regiones, Estados y Puerto Rico: 1 de abril de 2020 a 1 de julio de 2022 (NST-EST2022-ALLDATA).

Datos obtenidos de <https://www.census.gov>, Vintage 2020 a 2022.

Datos retirados a diciembre de 2022.

- (1) Deflated by implicit price deflators for personal consumption expenditures.  
 (2) The number of households used here represents the division of the total population by the average number of persons per household. For the purpose of the population census, a household includes all the people who occupy a housing unit (such as a house or apartment) as their usual place of residence.  
 (3) Department of Labor and Human Resources, Bureau of Statistics, Household Survey.  
 (4) Obtained from the division of gross domestic product at constant prices by total employment.  
 (5) Dec. 2006=100.  
 (6) Average of population estimates at the beginning and end of the fiscal year.

Intercensal data to July 2022.

U.S. Bureau of the Census, Population Division.

Population, Population Change, and Estimated Components of Population Change of the Resident population for the United States, Regions, States, and Puerto Rico: April 1, 2020 to July 1, 2022 (NST-EST2022-ALLDATA).

Data gathered from <https://www.census.gov>, Vintage 2020 a 2022.

Data as of December, 2022.

r- Cifras revisadas.

p- Cifras preliminares.

(1) Desde 1983 se incluyen los préstamos en compañías de fideicomiso con poderes de banco.

Para los años desde el 1997 al 1999 los datos reflejan cambios debido a disminuciones en los balances acumulados y a reclasificaciones de préstamos personales a préstamos hipotecarios.

(2) Desde 1995 se incluyen sólo dos bancos federales de ahorro. Estos pasaron a ser bancos comerciales en 1999.

(3) No incluye todas las tarjetas de crédito.

r- Revised figures.

p- Preliminary figures.

(1) Since 1983 the loans in trust companies with banking powers have been included.

For years 1997 to 1999, there are changes in these figures due to lower accrued balances and changes in classification of personal loans to mortgage loans.

(2) Since 1995 only two federal saving banks are included. They became commercial banks in 1999.

(3) Does not include all credit cards.

r- Cifras revisadas.

p- Cifras preliminares.

(1) A partir de 1996, los recaudos por concepto de intereses sobre dividendos se redujeron de 20 a 10% debido a la Reforma Contributiva de 1994 (Ley Num.120 del 31 de octubre de 1994).

(2) Desde el año fiscal 2001, el Departamento de Hacienda incorpora estas partidas.

r- Revised figures.

p- Preliminary figures.

(1) Since 1996, the receipts from interest on dividends were lowered from 20% to 10% due to the 1994 Tax Reform (Act 120 of October 31, 1994).

(2) Since fiscal year 2001, the Department of the Treasury incorporates these items.

# TASAS de CRECIMIENTO

GROWTH RATES

## INTERPRETACIÓN DE LOS CUADROS DE TASAS DE CRECIMIENTO ANUAL

Esta sección del Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa 2022 incluye cuadros con las tasas de crecimiento para los años fiscales 2002 al 2022 correspondientes a las siguientes variables económicas:

- |   |   |
|---|---|
| 1. Producto bruto                                 | 15. Ingreso personal  |
| 2. Producto bruto per cápita                      | 16. Ingreso personal per cápita   |
| 3. Gastos de consumo personal                     | 17. Ingreso personal disponible   |
| 4. Gastos de consumo personal per cápita          | 18. Ingreso personal disponible per cápita                                      |
| 5. Gastos de consumo personal de bienes duraderos | 19. Ingreso neto  |
| 6. Gastos de consumo personal de bienes duraderos | 20. Ingreso neto per cápita   |
| 7. Gastos de consumo personal de servicios        | 21. Índices implícitos de precios para deflacionar el producto bruto            |
| 8. Gastos de consumo del gobierno                 | 22. Índice implícito de precios para deflacionar los gastos de consumo personal |
| 9. Inversión interna bruta de capital fijo        | 23. Empleo  |
| 10. Inversión en construcción                     | 24. Desempleo   |
| 11. Inversión en construcción de vivienda privada | 25. Población   |
| 12. Inversión en maquinaria y equipo              | 26. Deuda pública bruta de Puerto Rico  |
| 13. Producto interno bruto                        |   |
| 14. Producto interno bruto per cápita             |   |

Los cuadros para estas variables se presentan a precios corrientes y constantes, según se interese. Cada uno de éstos contiene las tasas de crecimiento anual que relacionan dos años. Los cuadros están divididos por una línea diagonal. Las tasas de crecimiento a precios corrientes se presentan en la parte inferior de la línea y las tasas de crecimiento a precios constantes en la parte superior. El cuadro se lee igual que el sistema de coordenadas cartesianas. Tanto en el eje de las abscisas (eje horizontal) como en el de las ordenadas (eje vertical) aparecen los años. En el punto o celda de intersección de dos años dados aparece la tasa de crecimiento para el periodo.

- Si se interesa obtener la tasa de crecimiento de una variable a precios corrientes entre dos años dados, se busca primeramente en el eje vertical el año más reciente de los dos años que desea comparar, luego busca en el eje horizontal (en el tope del cuadro) el año a comprar y encuentre el dato de intersección de ambos años. El valor que aparece en la celda de intersección es la tasa de crecimiento monetario durante el periodo.
- Si se interesa obtener la tasa de crecimiento a precios constantes del mismo periodo, se busca primeramente en el eje horizontal (en el tope del cuadro) el año más reciente, luego busca en el eje vertical el año a comprar y encuentre el dato de intersección de ambos años. El valor que aparece en la celda de intersección es la tasa de crecimiento real durante el periodo.

La ventaja de este ordenamiento es que permite comparar directamente, entre dos años dados, la tasa de crecimiento monetario con la tasa de crecimiento real de una determinada variable.

## INTERPRETATION OF THE ANNUAL GROWTH RATES TABLES

This section of the Statistical Appendix of the Economic Report to the Governor and to the Legislative Assembly 2022 includes tables for growth rates of fiscal years 2002 through 2022, corresponding to the following economic variables:

- |  |  |
|--|--|
| 1. Gross Product                                       | 14. Per Capita Gross Domestic Product                              |
| 2. Per Capita Gross Product                            | 15. Personal Income  |
| 3. Personal Consumption Expenditures                   | 16. Personal Per Capita Income                                     |
| 4. Per Capita Personal Consumption Expenditures        | 17. Disposable Personal Income                                     |
| 5. Durable Goods Personal Consumption Expenditures     | 18. Per Capita Disposable Personal Income                          |
| 6. Non-Durable Goods Personal Consumption Expenditures | 19. Net Income   |
| 7. Personal Consumption Expenditures of Services       | 20. Per Capita Net Income  |
| 8. Government Consumption Expenditures                 | 21. Implicit Price Deflators for Gross Product                     |
| 9. Gross Fixed Domestic Investment                     | 22. Implicit Price Deflators for Personal Consumption Expenditures |
| 10. Construction Investment                            | 23. Employment   |
| 11. Private Housing Construction Investment            | 24. Unemployment   |
| 12. Machinery and Equipment Investment                 | 25. Population   |
| 13. Gross Domestic Product                             | 26. Gross Public Debt of Puerto Rico                               |

The tables presented for these variables show current and constant prices. Each one of these contain annual growth rates and allow relating two years. A diagonal line divides the tables, growth rates at current prices are below the line and the growth rates at constant prices are over the line. To read the table do so as in a Cartesian plane, where the years appear at both the abscissas axis (horizontal axis) as well as that of the ordinates axis (vertical axis). At the intersection point or cell for two given years, the growth rate for such period appears.

- If you are interested in obtaining a variable's growth rate at current prices between two given years, first look at the vertical axis for the most recent year of the two years to be compared, next, find the other year in the horizontal axis (at the top of the table) and look for the point of intersection between such years. The value appearing at the intersection cell is the nominal growth rate during such period.
- If you are interested in obtaining the constant growth rate for the same variable, first look at the horizontal axis (at the top of the table) for the most recent year, of the two years to be compared, next, find the other year at the vertical axis, and look for the point of intersection between such years. The value appearing at the intersection cell is the real growth rate during such period.

The advantage of this layout is that it permits a direct comparison, between two years, of the nominal growth rate with the real growth rate of a determined macroeconomic variable.
