RESUMEN EJECUTIVO 2024

Las Estadísticas Seleccionadas de la Industria de la Construcción (ESIC) presentan un resumen de la actividad de inversión en el Puerto Rico. Se busca medir la actividad privada y pública de la industria de la construcción. Esta publicación presenta datos sobre: (1) inversión privada y pública en proyectos residenciales, comerciales, institucionales e industriales; (2) permisos de construcción; (3) producción, importación y ventas de cemento; (4) empleo en construcción; y (5) tasas de interés. La actividad de construcción privada y pública durante el año fiscal 2024 alcanzó \$7,140.6 millones. Esto representó un aumento de \$1,134.4 millones o 18.9%, con respecto al año fiscal 2023 donde la actividad de construcción privada y pública se situó en \$6,006.2 millones.

A nivel privado, la inversión en construcción se estimó en \$4,324.3 millones. Esto reflejó un aumento de \$347.0 millones u 8.7%, en relación con el año fiscal 2023 donde la actividad de construcción privada se proyectó en \$3,977.3 millones. Por el lado público, dicha actividad se estimó en \$2,816.3 millones. Esto representó un aumento de \$787.4 millones o 38.8%, respecto al año fiscal 2023 donde la actividad de construcción pública se estimó en \$2,029.0 millones. Como se puede observar, en el año fiscal 2024 la inversión privada proyectada representó el 60.6% de la inversión total, mientras que la inversión pública estimada representó el 39.4%.

La serie de datos publicada en este documento comprende el período de los años fiscales 2015 a 2024. En dicha serie se puede observar, que la inversión total en construcción mostró reducciones hasta el 2017. Posteriormente, los fondos federales y seguros pagados por los desastres naturales (Huracanes) allegaron robustamente valores a la actividad. Fueron varias entidades utilizadas para los hallazgos.

1. Oficina de rendición de cuentas del gobierno de los estados unidos (GAO-19-296, GAO-20-221, GAO-19-256).
2. Oficina del Comisionado de Seguros (Informe Anual de la Industria de Seguros).
3. Portal de Transparencia de COR3
4. FEMA (Portal de Internet).

Los componentes de la inversión total se comportaron de la siguiente forma, en comparación con el año fiscal 2023: (a) Vivienda Privada, aumento 7.9%; (b) Edificios Comerciales e Industriales Privados, reflejaron un aumento de 6.1%; (c) Proyectos de Instalaciones Privados, crecieron 10.0%; (d) Vivienda Pública, reflejo un aumento de 139.6%; (e) Edificios Comerciales e Industriales

Públicos, disminuyó 19.7%; Proyectos de Instalaciones Públicas, un incremento de 4.7%; y (g) Agencias del Gobierno Central y Municipios, un crecimiento de 62.0%.

En términos del cemento, se publican tres tablas: la Producción de Cemento, Ventas de Cemento e Importación de Cemento. Durante el año fiscal 2024, se registró un total de 8.4 millones de sacos de cemento producidos en Puerto Rico. Esto representó una disminución de 5.3%, con respecto a la producción del año fiscal 2023 la cual se situó en 8.8 millones de sacos de cemento. Las ventas de cemento totalizaron 14.4 millones de sacos de cemento en el año fiscal 2024. Esto es una disminución de 1.0%, en comparación con el año fiscal 2023 que se vendieron 14.5 millones de sacos de cemento. Otro renglón relacionado al cemento lo es la importación de este producto. En el año fiscal 2024, se importaron 616,358 toneladas de cemento. De éstas, el 99.4% (612,835 toneladas) fueron de países extranjeros, mientras que el restante 0.6% (3523 toneladas) fueron importaciones de Estados Unidos. Estas 616,358 toneladas de cemento importadas representaron un aumento de 14.5%, en relación con 527,189 toneladas importadas en el año fiscal 2023.

El indicador de empleo es un componente importante del sector de la construcción. Se ha observado una tendencia ascendente en este indicador en el período publicado. Durante el año fiscal 2024, el empleo en el sector de la construcción alcanzó 61 mil personas, lo que representó un aumento de 9.8%, en comparación con el año fiscal 2023, donde dicho indicador se situó en 55 mil empleos.

Otro indicador del sector de la construcción lo son las tasas de interés, ya sea la tasa de interés primario o la tasa de interés para los préstamos hipotecarios convencionales. De la publicación se puede observar que la tasa de interés primario promedio permaneció muchos años fija en 3.25 por ciento, pero ya para los años fiscales 2016, 2017, 2018, 2019 fue en aumento gradualmente. Para el 2020 con la pandemia de COVID-19, las tasas se redujeron drásticamente. De 2021-2024 dado la inflación se incrementó las tasas. La tasa de interés para los préstamos hipotecarios convencionales ha sido más variable durante el período publicado 2015-2024.

A lo largo de la publicación, se observa la evolución de los distintos renglones para el período de los años fiscales 2015 al 2024. Sírvase el usuario de realizar los análisis pertinentes sobre los sectores y hacer consultas a la Junta de Planificación sobre lo aquí publicado.

EXECUTIVE SUMMARY 2024

The Selected Statistics of the Construction Industry (ESIC) presents a summary of the investment activity in the country. The aim is to measure private and public construction activity. This publication presents data on: (1) investment –private and public- in residential, commercial, institutional, and industrial projects; (2) construction permits; (3) cement production, import and sales; (4) employment in construction; and (5) interest rates. The private and public construction activity for fiscal year 2024 was \$ 7,140.6 million. This represented an increase of \$ 1134.4 million or 18.8% with respect to fiscal year 2023 where the private and public construction activity stood at \$6,006.2 million dollars.

At the private level, investment in construction was estimated at \$ 4,324.3 million dollars. This represented an increase of \$347.0 million or 8.7% with respect to fiscal year 2023 where the private construction activity was projected at \$ 3,977.3 million dollars. On the public side, this activity was estimated at \$ 2,816.3 million dollars. This represented an increase of \$787.4 million or 38.8% with respect to the fiscal year 2023 where the public construction activity was estimated at \$2,029.0 million dollars. As can be seen, for the fiscal year 2024 estimated private investment represented 60.6% of the total investment, while the estimated public investment represented 39.4%.

The series of data published in this document covers the period from 2015 to 2024. In this series, the total investment in construction has been decreasing until 2017. Subsequently, it is where the federal funds and insurance claims paid gave a robust increase in values for the activity. Several entities were used for the findings.

1. United States Government Accountability Office (GOA-19-296, GAO-20-221, GAO-19-256).
2. Office of the Insurance Commissioner (Annual Insurance Report).
3. COR3 Transparency Portal
4. FEMA (Internet Portal)

The components of the total investment are: (a) Private Housing, a reduction of 7.9 % with respect to the value published in the fiscal year 2023; (b) Commercial and Private Industrial Buildings, an increase of 6.1 % with respect to fiscal year 2023; (c) Private Facilities Projects, an increase of 10.0 % with respect to the fiscal year 2023; (d) Public Housing, an

increase of 139.6 % with respect to the value published in the fiscal year 2023; (e) Commercial and Industrial Public Buildings, a reduction of 19.7 % with respect to fiscal year 2023; (f) Public Facilities Projects, a reduction of 4.7 % with respect to fiscal year 2023; and (g) Central Government Agency and Municipalities, an increase of 62.0 % with respect to the value published in the fiscal year 2023.

In terms of cement, three tables are published in this regard. It has Cement Production, Cement Sales, and Cement Importation. For fiscal year 2024, a total of 8.4 million bags of cement produced in Puerto Rico was registered. This represented a reduction of 5.3 % with respect to the production of fiscal year 2023, which stood at 8.8 million bags of cement. On the other hand, cement sales totaled 14.4 million bags of cement for fiscal year 2024. This reduction of 1.0 % compared to fiscal year 2023 sold 14.5 million bags of cement. Another line related to cement is the import of this product. For fiscal year 2024, 616,358 tons of cement were imported. Of these, 99.4 % (612,835 tons) were from foreign countries, while the remaining 0.6 % (3523 tons) were imports from the United States. These 616,358 tons of cement imported represented an increase of 14.5 % compared to the 527,189 tons imported in fiscal year 2023.

The employment indicator is an important component of the construction sector. An upward trend has been observed in this indicator in the published period. For fiscal year 2024, employment in the construction sector was 61 thousand people, which represents an increase of 9.8 % with respect to employment in the fiscal year 2023 where this indicator stood at 55 thousand jobs.

Another indicator of the construction sector is interest rates, either the primary interest rate or the interest rate for conventional mortgage loans. From the publication, the average primary interest rate remained fixed at 3.25 % for many years, but it has been rising for fiscal years 2016, 2017, 2018, 2019 and 2020. One possible explanation for the increase in this interest rate could be that the Federal Reserve has been gradually increasing interest rates in the face of improvements in the US economy after the 2008–2009 recession. On the other hand, the interest rate for conventional mortgage loans has been more variable during the period-published 2015–2024. Throughout the publication, the evolution of the different items for the period of fiscal years 2012 to 2021 is observed. The user should carry out the pertinent analysis of the sectors and consult the Planning Board on what has been published here.
